Barcelona, Spain • +34 635 475 139 • francescabentin@gmail.com • [linkedin.com/in/francescabentin/](https://www.linkedin.com/in/francescabentin/)

Front-End Developer with a UX focus and nearly 2 years of experience in web development and user experience. Strong commercial background in multinational companies. Trained in 2023 through an intensive ME(R)N full-stack bootcamp. Currently at NFQ Solutions, implementing banking features with Vue.js 2 & 3 and collaborating with interdisciplinary teams (backend, design, QA).

WORK EXPERIENCE

Nfq Advisory, Solutions, Outsourcing

Junior Front End Developer

Remote

Oct 2024 – Present

- Developed and maintained complex UI modules using Vue.js 2 & 3, ensuring high performance and responsiveness.
- Collaborated with backend engineers, designers, and QA to deliver robust banking features, from spec to production.
- Identified and resolved styling bugs, functional issues, and error-handling gaps in API endpoints, while optimizing router middleware flows.
- Refactored and strengthened authentication logic and token management to improve security and user session handling.
- Built reusable Vue components, wrote technical documentation, and authored unit/integration tests to ensure code quality and maintainability.

Nfq Advisory, Solutions, Outsourcing

Ux Junior Specialist

Remote

Dec 2023 – Oct 2024

- Spearheaded the rollout of a Design Tokens system, partnering with engineering and design teams to standardize UI styles and speed up front-end development.
- Crafted and refined interactive prototypes in Figma, validating complex user flows against business logic and usability best practices.
- Produced detailed flow diagrams and technical documentation to guide cross-functional teams through new features and design standards.
- Enhanced api accessibility by designing and integrating custom keyboard shortcuts into a legacy Vue 2 application.
